Google Workspace
for Education

POINTSTAR

Learn and collaborate from anywhere

Education Fundamentals is a free suite of tools that enables collaborative learning opportunities through a secure platform - all in one place.

Collaborate

- **Easy** and **seamless** collaboration, communication and participation from **anywhere** with **Google Meet, Chat, Gmail, Docs, Sheets, Slides, Sites and Jamboard**

- Enable an **inclusive learning environment** with individual accessibility settings that fit each student's **unique learning style**

Productive

- Help educators **save time** and **streamline workloads** with Classroom and Assignments by easily creating, organizing, scheduling classwork and to-do lists.

- Enable **consistent** and **transparent** grading and feedback system with rubrics and a comment bank.

- Guide **original thinking** and **academic integrity** with quick scans to flag citation issues in originality reports

Secure

- **In compliance** with Google's rigorous data protection practices and are **audited** by third parties

- Ensure all your devices are **protected with multi-layered security** with mobile device management

- Enable security key enforcement and 2-step verification for an **extra layer of authentication**

- **Protect sensitive data** in **Gmail** and **Drive** with automated data loss prevention (DLP)

Get the storage you need.
Rely on ample storage with **100 TB of pooled cloud storage** shared by your organization.

More than **170 million** students and educators are using Google Workspace for Education.

POINTSTAR

Peace of mind with proactive security

Build on the capabilities of Education Fundamentals* with Education Standard which provides advanced security and analytics tools that help protect data, maintain privacy, and safeguard your school community against digital threats.

Proactive Security

- **Prevent issues** that emerge on the **security center dashboard** by **implementing recommendations** from the **security health page**
- **Identify potential threats** and **detect incidents** by automatically scan email attachments with **security sandbox**
- **Remediate** spam, phishing, and other **potential breaches** by taking action with the **investigation tool**

Centralized Security

- **Prevent breaches** with **advanced permission settings** to proactively set rules for file sharing
- **Keep** your school's **data safe** by managing devices and apps, performing audits, and enforcing rules with **advanced mobile management**
- **Move user and log data** from Microsoft Exchange, Microsoft SharePoint, Box, or another Google Workspace domain with a **simple data migration** process

Analytics and Insights

- **Gain more insights** by using the **Gmail log and Classroom log export** features to export data for analysis in BigQuery or other tools
- **Track usage** across your domain by analyzing **advanced audit logs**

### Keeping learners safe is more important than ever.

24.5 million school records have been leaked due to 1327 data breaches since 2005 with a significant increase over the past couple years.*

POINTSTAR

Upgrade your digital learning environment

Education Plus is the ultimate Google Workspace for Education edition. It includes all the enhanced security features and premium teaching and learning tools.* Deploy Education Plus to transform your institution's digital learning environment.

Education Fundamentals + Education Standard + Teaching and Learning Upgrade

Teaching and learning

- **Larger meetings.** Connect with up to 250 participants in each virtual meeting, or live stream up to 100,000 in-domain viewers.
- **Enrich class experiences.** Sync **Classroom** rosters from your Student Information System to manage class rosters at scale. Allow content and tools to be used seamlessly right within **Classroom** using **Classroom** add-ons and inspire enriching curriculum with course templates.

  ★ Coming soon

- **Promote academic integrity.** Scan for potential plagiarism and use school matches to scan submissions against a school-owned repository of past student work with unlimited originality reports.
- **Increase engagement.** Take advantage of easy to use **Google Meet** features like recorded lessons, attendance tracking, breakout rooms, Q&A, polling, and more.

Security and insights

- **Proactive digital security.** Quickly and easily prevent, detect, and remediate security incidents and track security health.
- **Get more control over your data.** Manage your mobile devices, as well as your data, based on geographic region.
- **Extract insights.** Access analytics by exporting **Gmail** logs and **Classroom** logs for analysis in BigQuery or your own tools – and extract from advanced audit logs for **Drive** or devices.

Search for content across your domain, using your institution's own **Cloud Search**

Receive an **additional 20 GB for each paid license** on top of the 100 TB of pooled cloud storage

Product specialists support is provided for institutions that purchase over 200 licenses

Receive **1 staff license for every 4 student licenses bought** to benefit the entire education community.
